Skater of the month

Cami Kagramanov

Cami is 15 years old and has been skating for 7 years now. She began skating when she was 5 years old and continued to do so until the rink closed down during COVID. After the pandemic, she found her way back to the ice two years ago.

Her favorite moves are falling leaf and side layback, and her current goal is to get her axel back before the new year.

Congratulations to October testers!
